Business Settlements

Business contracts have the tendency to be rather complex.

A typical Business Settlement involves:

- form 2
- staff entitlements
- business name registration
- stock at value
- restraint of trade
- plant & equipment
- franchises and leases and much more.
- We have the necessary experience and knowledge to handle all types of business conveyancing.

We can also assist in preparing private contracts and guidance through the necessary steps to complete the transaction successfully.

For further queries on the above please visit www.esconveyancers.com.au or email info@esconveyancers.com.au or contact us on **8366 7900** and ask to be transferred to an office nearest you.
